

CONSENT FOR TREATMENT

I HEREBY AUTHORIZE Eye Associates of Texas to examine and treat me, or the individual for whom I am responsible.

During the course of diagnosis or treatment, eye drops may be used to dilate the pupils. These drops may cause temporary blurred vision and glare. Driving an automobile, or operating machinery, is not advised until the effects of the drops have worn off. It is not possible for your ophthalmologist to predict how much your vision will be affected. Adverse reaction, such as acute angle-closure glaucoma, may be triggered from the dilating drops. This is extremely rare and treatable with immediate medical attention.

I verify that I am not pregnant or nursing at the time of my dilated exam.

I authorize **Eye Associates of Texas** to release information acquired in the course of my examination and treatment to my insurance carriers.

I further understand that I have primary responsibility for payment of my charges.
